Read through the following material and you will understand just why we are so excited by this company. Combined with the amazing products, Enagic USA has created a true slam dunk opportunity!

The Compensation Plan

Distributors sell products and sponsor business builders into the Enagic community of health-conscious customers and entrepreneurs.

To become an Independent Enagic Distributor, an applicant must:

- [Be sponsored by an existing Enagic Distributor](#)
- [Read and agree to abide by Enagic's Policies & Procedures](#)
- [Submit a Distributor Application / Agreement to the company and be accepted](#)

There is **no sign-up fee** to become a Distributor and **no product purchase is required**. It is, however, necessary to sell product to earn commissions, bonuses, and rank advancement. The Enagic Compensation Plan calculates commissions and bonuses based solely on the sale of products and not on the recruiting of other distributors.

All Distributors purchase product at the same cost directly from the company and enjoy the following benefits of this highly lucrative plan:

- [No stocking of inventory](#)
- [No monthly qualifications](#)
- [No time limits](#)
- [No annual renewal](#)
- [Commissions paid daily](#)
- [Direct deposit](#)
- [Accumulative sales](#)
- [Six ways to earn](#)
- [International sponsoring](#)

The Enagic Compensation Plan is **unique** and the first of its kind in the industry. The Plan begins with The Basic 8 Point Commission Structure. This structure works the same for all products, although the commission point value varies for each product.

8 Point Commission Structure

The Basic 8 Point Commission Structure is the foundation from which each Distributor begins building his/her financial health with Enagic.

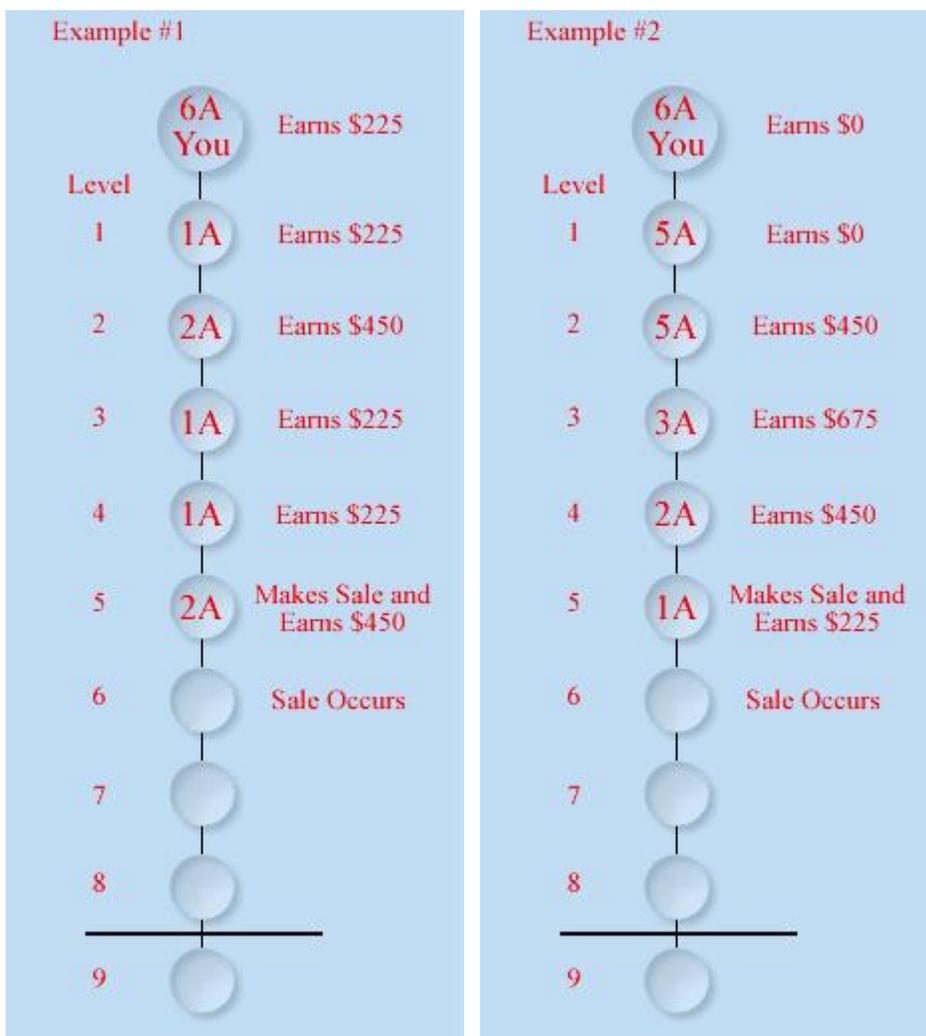

The following explains how a Distributor achieves each rank advancement, and the maximum they are eligible to earn at each rank of "1A" through "6A". For simplicity, all examples shown here use the commission point value of the SD501, our most popular unit. Each point for this product has a value of \$285.

- **A total of 8 points are paid out on each product sale**, and the number of points paid to a Distributor is based upon his/her rank. A Distributor at rank 1A will be paid one point, a 2A Distributor will be paid 2 points, and so forth. For the SD501, the total pay out for each product sale is $\$285 \times 8 = \1710 .

- **Commission pay-out always begins with the Distributor that made the sale and is paid out up line from that point until all 8 points have been awarded.** If a Distributor within 8 levels beneath you advances to a higher rank, your maximum pay could be reduced.

In Example #1 below, you are a 6A Distributor. You will see that the Distributor making the sale is at rank 2A and receives 2 points, or \$570, for the sale. The Distributor three levels above the Distributor who made the sale is also a 2A and receives 2 points. Three other Distributors of rank 1A fall in between you and the sale, leaving one remaining point of the original 8 points which is awarded to you.

Example #2 below is very similar, except that 4 of the 5 Distributors between you and the sale have advanced in rank. You will see that all points for the sale are thus paid out to the first four Distributors upline of the sale.

- **At any given rank, you earn the amount due for your rank, less the amount due to other distributors between you and the sale.** In this way, you are provided incentive not only to support your downline, but to continually increase your direct sales as well to maximize the commissions earned by your rank.

- **If you are a 6A and you make the sale, you receive 6 full points, or \$1710!**

The commission chart below shows the point value for each product and the maximum commission earned per sale based on distributor rank.

Advancing Rank

Rank advancement is based on a combination of direct and group sales, and it is not necessary to advance ranks one at a time. An advance in rank is always initiated by a direct sale, but a Distributor will advance to whichever rank is qualified for, based on total accumulated sales volume.
